

# WELLACRE

4<sup>th</sup> March, 2020

Dear Parent/Carer,

Your son will have by now completed his second assessment of the year in Maths and received his grade. Assessments help students identify their areas of weakness in topics they may have struggled with in their exam. This can be addressed by undertaking more independent study at home and your son concentrating on filling the gaps in his knowledge.

Students are all aware of MathsWatch (login details below) and hopefully have already been using this resource to help them revise for their assessments. I would also recommend that your son uses some of the other excellent online resources available as part of his independent study as detailed below.

**MathsWatch** (<https://vle.mathswatch.co.uk/vle/>)

Login: pupil name in the format, tsmith@wellacre

Password: wellacre

Note: Student can change their password by clicking on their name in the top right after logging in, and clicking 'My Details'

### **Five Excellent Websites for Maths Independent Study (besides MathsWatch)**

**Corbett Maths** (<https://corbettmaths.com/>)

This website has some good exam practice questions, with all working out and solutions provided. The 5-a-day question in particular are excellent way to keep on top of your learning.

**MathsGenie** (<http://www.mathsgenie.co.uk>)

There are good graded 1-9 assessments with answers, and links to lots of exam papers here: <https://www.mathsgenie.co.uk/papers.html>

**MathsBot** (<http://mathsbot.com/>)

Lots of great GCSE resources on this website, including randomly generated exam papers at your chosen tier of difficulty.

# WELLACRE

**PixiMaths** (<https://www.piximaths.co.uk/>)

The revision mats on this website are excellent - [www.piximaths.co.uk/revision-mats](http://www.piximaths.co.uk/revision-mats). There are lots of different lessons and resources to download and print.

**Maths4Everyone** (<https://www.maths4everyone.com/index.html>)

The Topic Review sheets on this website are a great way to make sure you can answer a variety of different question styles on each topic.

Please encourage your son to try out these websites in response to their exam feedback.

Thank you for your continued support.

Yours sincerely,

**Mr Sharrock**  
**Director of Mathematics and Numeracy**
